TO THE COMMUNITY OF HONGKONG. NOTICE.

THE PLAGUE RECOGNITION GENERAL Countries have the honour to lay before the residents of Hongkong the following STATEMENT, and to APPEAL for further SUBSCRIPTIONS to enable them to redeem their Promises in regard to the Recognition to be accorded to the numerous Workers during Last Year's Plague.

It will be remembered that when the Appeal for FUNDS was first made it was intimated that a sum of \$5,000 would probably be adequate to mest the cost of Medals, &c. &c. As SUBSCRIPTIONS flowed in freely from

sonably expected both that the CHINESE COM- ING of the SHAREHOLDERS in this MUNITY would materially help and that the CORPORATION will be held at the CITY HALL. receipts from the PLAGUE CONCERTS would be Hongkong, on SATURDAY, the 16th day of substantial, it was estimated that a sum of FEBRUARY next, at 12 o'clock Noon, for the \$6,500 would result from the Liberality of the Purpose of Receiving the Report of the Court

Acting on this Estimate and being guided as to the probable cost of Medals by an expert, the COMMITTEE increased by 50 per cent, the number of Gold Medals to be awarded. It now transpires that the Reliance of the

COMMITTEE upon the CHINESE COMMUNITY and upon the PLAGUE CONCERTS was misplaced. as, justead of sums of \$20.0 and \$1500 stilled at the time to be the same derivable from these two sources, the total amounts actually received or still due are only \$145.00 and \$116.00 respectively in addition to this, the Estimate of the charge for Med als locally ascertained has proved to be wide of the mark. The COMMITTEE are in a position to state that

the cast of Medula as they are now advised will be about \$5.500, that the Plate, No., will cost \$1,800, and that a sum of at least \$700 will be required for Letters of Thanks, Contribution to SUPERIOR OLD COGNAC, Italian Convent, and other Outgoings. Under the above circumstances the COMMIT TEE make a FRESH APPEAL to the Generesity of the COMMUNITY for a SUM of \$3,000

- AT LEAST, and-trust that it will not be incombent on them to co back on the Undertaking to which they have been committed by speech and record.

The average big-muscled Offices, Victoria Buildings, at noon, on Monday | man is muscle-bound, and even Sandow himself a probably at a disadvantage in feats requiring combination of skill, strength, and agility Corbott is an ideal athlete, with muscles that are well laid but not bulky. Sandow's exhi bitions call for a word of caution to vouths who magine that his feats of strength illustrate ideal training, for he is of very phlegmatic temperament, and persons of more sensitive organization would soon pass the danger line in attempting to emulate him. The personal equation must be considered even in athletics, wails diet and drink cannot be neglected. Sandow's apparently perfect condition does not justify the inference that great feats of strength are harmess in any case, for at his best he is confronted by two dangers—death at an early period if his athletic strain is suspended, or death at middle age from a continuance of his work. To rest is impossible without decay of his enormous heart and lungs. It has been said that "a than is just as old as his arteries." and at 45 Sandow with be in the prime of his strength, while his arteries and heart will not be in their prime of elasticity. Readjoatment after strain will be no longer possible, and degeneration and disease of heart and arteries will follow. Sandow's system of muscle-building is superb, but dangerous.
